“ *I only found out this week end that Gary passed away. I feel so sad and a great loss of a great friend who had a huge heart and a huge smile. Gary undoubtedly was an excellent care taker to my dad and a very good friend to my brother and me during the difficult years of my parents' decline in health. He was positive , cheerful , and helpful. But his greatest gift was sharing stories about growing up in San Francisco telling them only as a native San Franciscan can do. We enjoyed many memories and laughs with Gary. I'll always be grateful for his friendship and his dedication to my mom and dad. I hope he has found peace at last. RIP.*
